A2.0 3/8" = 1' - 0"

Interior Elevation A: North Wall

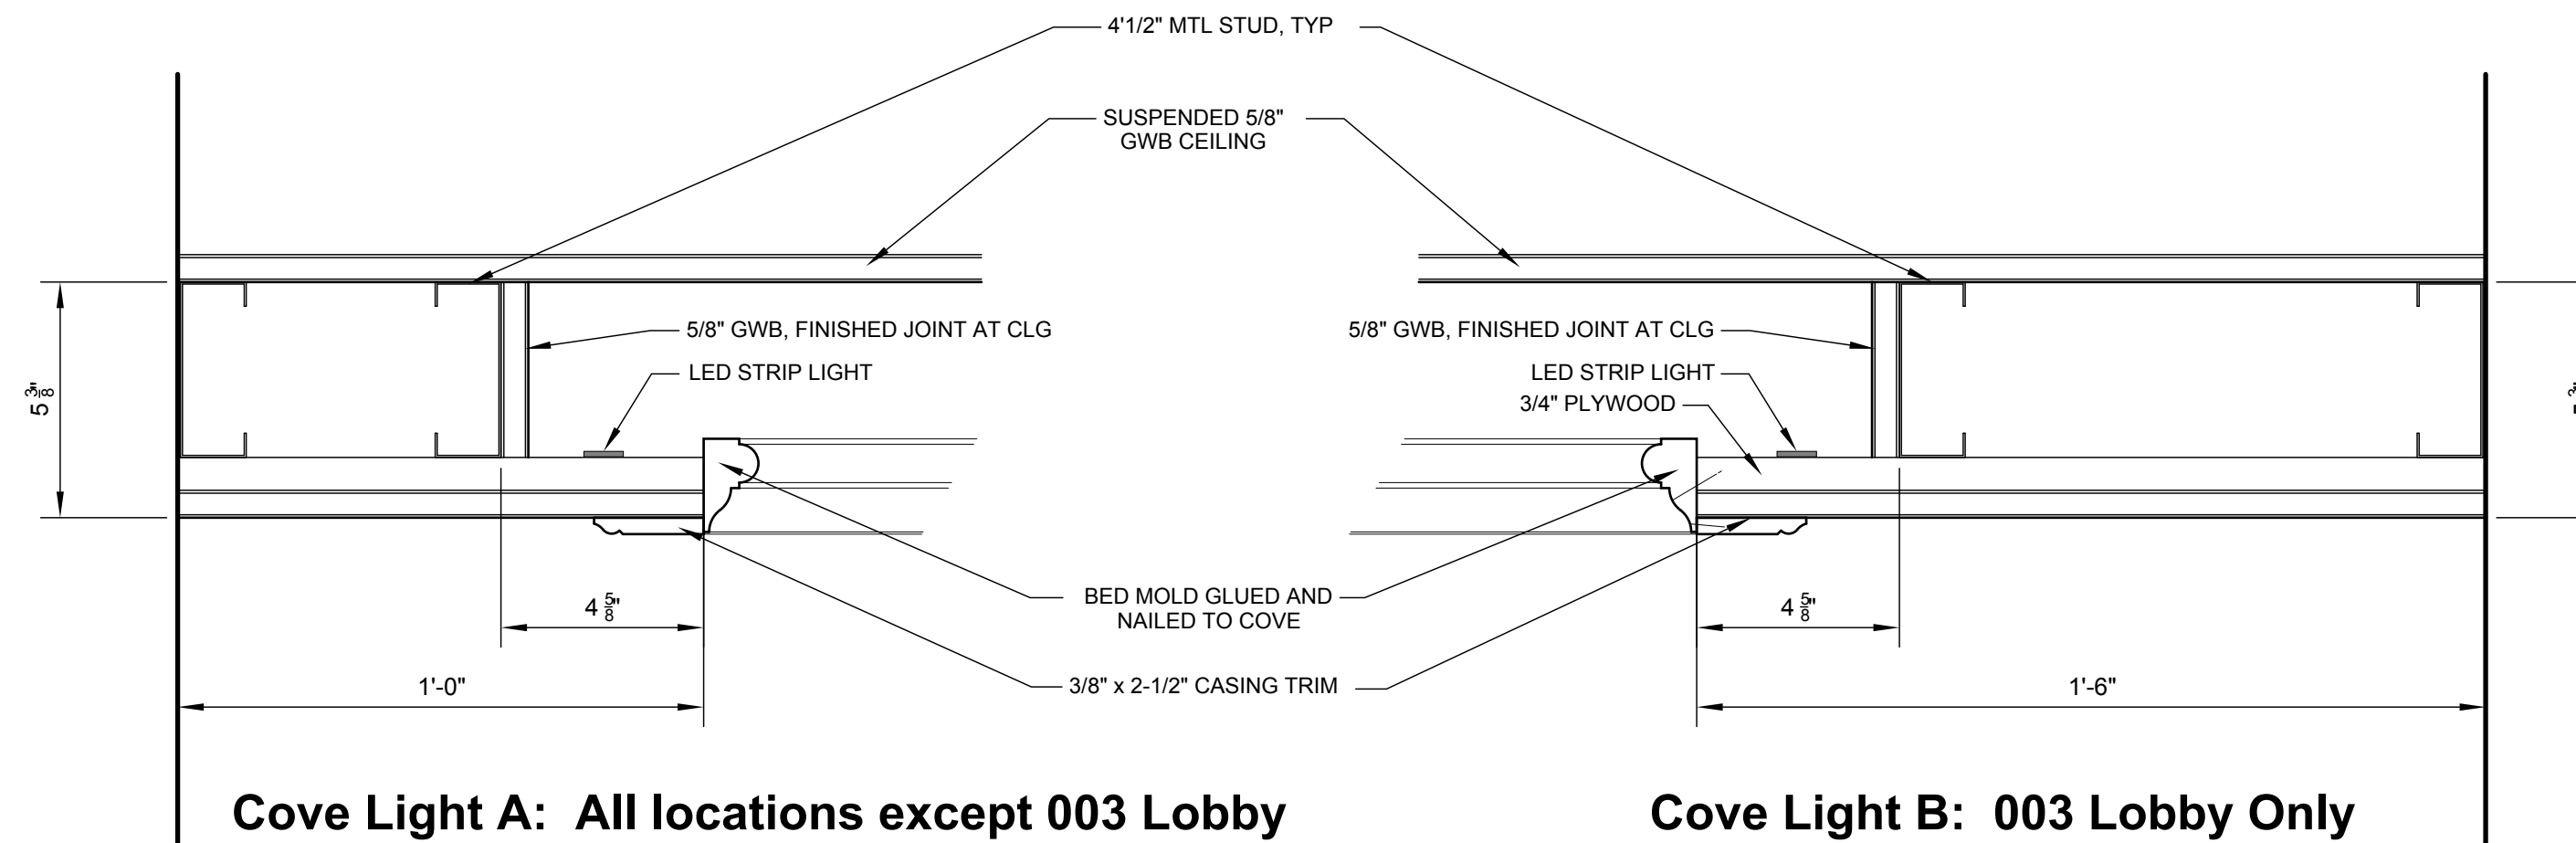

Interior Elevation B: South Wall

3 South and North Interior Elevations: 004 Corridor
A2.0 3/8" = 1' - 0"

Accessible Toilet Room Notes

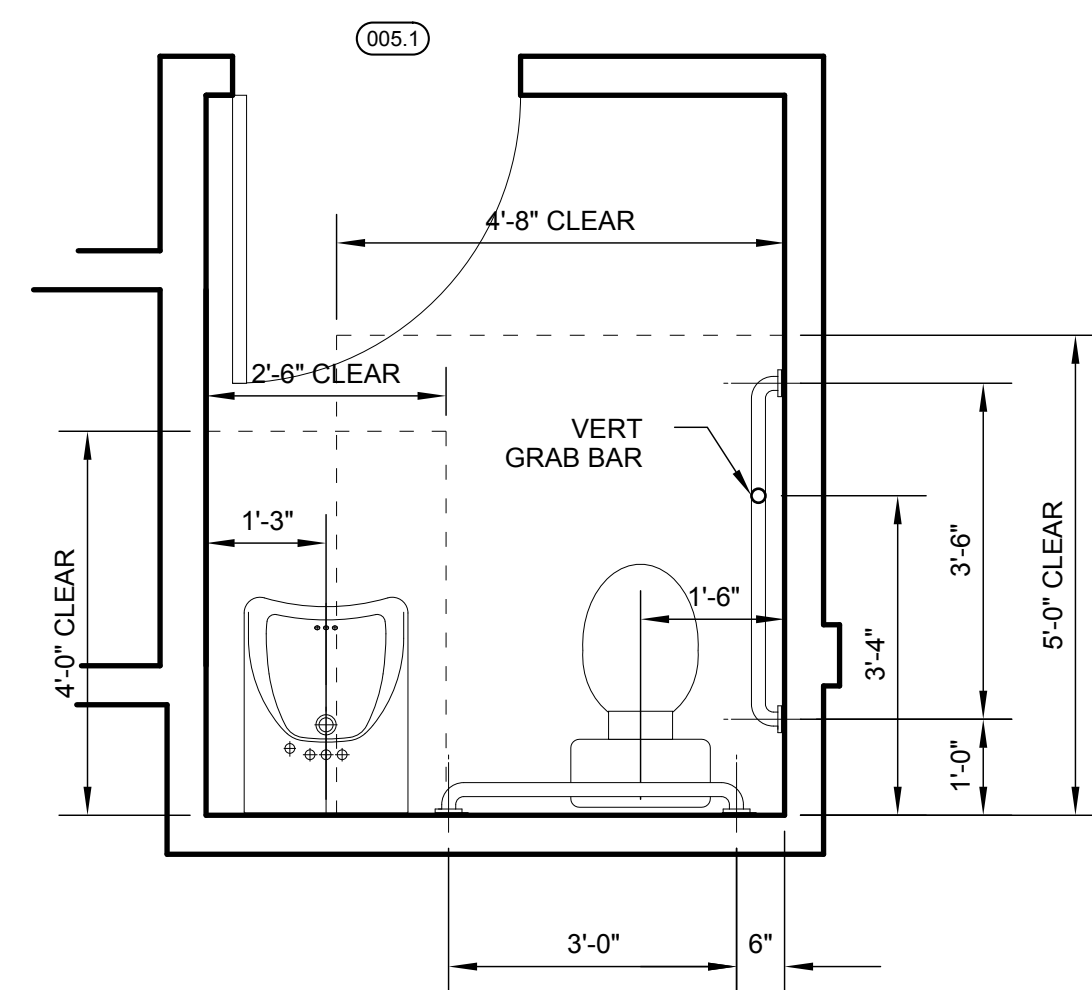

- In both Toilet Rooms, 005 and 006, re-use grab bars, toilet, sink, mirror, paper towel dispenser, and folding changing table unless otherwise directed by Owner or Architect. Provide blocking in walls for mounting accessories; locations to be coordinated with the Architect.
- New bath accessories:
Toilet tissue dispenser: Bradley Model 5123-55. Recessed, dual roll dispenser with hinged hoods.
- Provide an emergency call system. Re-use system from demolished toilet room for 005 Toilet Room, unless otherwise directed by Owner or Architect. Emergency call switch shall be located within 3 feet of the toilet fixture and shall have a string pull that extends to within 12 inches of the floor. Emergency instructions shall be posted beneath the toilet room sign in 003 Corridor. Emergency call system for existing toilet room 006 shall remain but the alarm light must be relocated over the new toilet room door.
- In both Toilet Rooms, 005 and 006, provide power assist door operators. Norton 5600 series.
- Provide chair rail in both Toilet Rooms as indicated in Interior Elevations for Toilet Room 005.
